DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 3-5, 7-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A “**realigning mechanism** that moves a position of the area heated by said heat element in a width direction of said slider, **to dynamically realign the area heated onto a same track as the write element**” it is not disclosed in the specification as originally filed.

3. Claims 1, 3-5, 7-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The scope of the heat element and the write element where the distance between the two can be shortened (page 15, lines 6-9 of instant specification) or increased (page 22, lines 2-3 of instant specification) is different than “the heat element and write element are mutually differing components from one another (Claim 1, page 11 of Amendment).”

Drawings

4. In response to Applicant's Arguments with respect to the drawings, if Figures 3-7 are not Prior Art, it suggested that the Figures would not be labeled as "Conventional." Please make appropriate corrections.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Hatam-Tabrizi et al. (US 6,324,130 B1); Boutaghou et al. (US 6,275,454) ; Coffey et al. (US 2004/0027728 A1).

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
